RELATED EXPERIENCE

8-Bit Micro coded Breadboard CPU – Fukui, Japan

May 2025 – Present

Creator

- Building an 8-bit breadboard CPU with custom ALU, flags, registers, and branching logic
- Designed 60+ instruction set, programming EEPROMs, and created custom microcode control
- Engineered stable power, clock, debouncing, and distribution for 100+ ICs, LEDs, and parts
- Integrated Harvard/Von Neumann mix architecture with EEPROM, RAM, and shared bus design

Candela Corporation – Seabrook, NH

June 2024 – October 2024

Document Controls Intern

- Analyzed hundreds of company items in Oracle Cloud and tracked data in Excel
- Created change orders to remove obsolete or deprecated inventory items
- Managed inventory data using Oracle Cloud PLM modules and Excel
- Participated in team meetings to coordinate lifecycle changes and report inventory status

RELATED PROJECTS

Book Club Website – Durham, NH

August 2024 – December 2024

Team Member

- Applied Agile development practices using GitLab for planning, branching, and version control
- Built and deployed microservices with Python (Flask), Azure Functions, and Docker
- Developed and tested REST APIs for user and club services integrated with MongoDB
- Designed responsive HTML front-end components to enhance service usability and user experience

ADDITIONAL EXPERIENCE

Kume Steakhouse – Seabrook, NH

May 2021 – May 2024

Busser

- Providing appetizers to customers, cleaning hibachi tables, maintaining restrooms, sweeping floors, answering customer questions, fulfilling customer requests, assisting other employees, and facilitating communication due to language barrier between employees
